Figma · Cursor · Pencil.dev · Miró · Framer · Jira · Notion · Maze · Git

## *Experience*

### Billionhands - Product and Design Systems Designer

`Barcelona, Spain - Apr 2025 - Currently working`

I currently work as a Product Designer at Billionhands, a collaborative platform for creating marketing products for small businesses. I led and built the design system from scratch while designing end-to-end experiences, implementing streamlined AI-assisted workflows, and exploring new ways to integrate AI into design processes.

### Hewlett Packard - Interaction Designer

`Barcelona, Spain - Apr 2023 - May 2024`

I worked as an Interaction Designer in the Construction Services area within HP's Large Format team. My role focused on developing interfaces for products related to architecture and machine learning. I also contributed to the development of HP Barcelona's design system.

### Ibisdev - Product Design Lead and Frontend developer

`Buenos Aires, Argentina - Barcelona, Spain - Sept 2019 - Feb 2023`

I started my career at Ibisdev as a Junior Frontend Developer and UX/UI Designer, where I was in charge of develop and launch products end-to-end. After one year, I was promoted to lead a cross-functional team of designers and developers. In this leadership role, I translated client requirements to the team, solved complex design issues, ensured high-quality prototypes with optimal user experiences, and collaborated closely with developers to provide design-driven solutions.

### Ministry of Modernization - UI Developer

`Buenos Aires, Argentina - Jun 2017 - Sep 2019`

I worked as UI developer in Ministry of Modernization , in a project named "Mi Argentina" where I tried to make all the public office paperwork more efficient and effective for the citizens. Also I maintained and updated the government's website https://www.argentina.gob.ar/, creating new features and improving the accessibility of the website.

### Presidencial team of the Argentina Nation - Newsletter designer /developer

`Buenos Aires, Argentina - Jan 2015 - Jun 2017`

I worked in the Presidential Citizen Communication Team as a designer and newsletter developer. I made custom designs and optimizations in each email, communicating news of the president and the government.

### Globant Design Center

`Buenos Aires, Argentina - March 2014 - Jun 2014`

At the Globant's design center, I did practices in the UX/UI area, interviewing users and stakeholders, made empathy maps, interaction flows, prototypes that later I tested with users.
